

La Fonction de Répartition de la distribution Student $T_n : F_n(z) = P(T_n < z)$

- la colonne de gauche de la table indique le nombre de degrés de liberté n
- la première ligne indique les valeurs de p
- les entrées du tableau sont les valeurs de z , telle que $F_n(z) = p$

p	75%	80%	85%	90%	95%	97.5%	99%	99.5%	99.75%	99.9%	99.95%
